JUKOLA 3D TEXTURES

– INVIDUAL DESIGN FOR INTERIORS AND FACADES

Lunawood's Jukola 3D panels combine state-of-the-art wood processing with traditional and contemporary Finnish design. The surfaces are composed of specially machined, yet conventional Thermowood profile boards. These boards can be applied in infinite ways as interior decorations as well as facade cladding. We only use the very best Scandinavian pine to ensure prime results.

The innovation behind Lunawood's Jukola 3D panels is based on the integration of mathematically controlled milling and algorithmic processes, which form the three dimensional wooden surface. The play of light and shadows on the three-dimensional surface brings out the unique qualities of the product.

THE BENEFITS OF JUKOLA 3D TEXTURES

- **Impressive 3D surface with many texture variations**
- **For interior and outdoor surfaces – Luna Thermo-D treatment**
- **Patented 3D production technique combines design with process technology and digital production control**
- **Thermowood is dimensionally stable, weatherproof, resin free and 100% natural**

**DIMENSIONAL
STABILITY**

ALL CLIMATES

**WEATHER

FORESTRY**

BEAUTIFUL TEXTURES INSPIRED BY NATURE

Lunawood's **Jukola Portfolio** has **6 beautiful textures** for creating a unique style for private and public houses, hotels, restaurants and offices. Textures create repetitive surface textures suited for interior design or wooden facades. The play of natural and artificial light brings out the unique characteristics of the paneling product. All of these textures are also available in white and black covering.

JUKOLA PROFILE

dimensions (mm)	26x92
class	LunaThermo-D
species	Scandinavian pine
length (m)	3,0/4,2
1 m ²	11,63 m
colors	black, white

Customized Jukola 3D textures allow for the designer to freely implement their creativity in the creation of new textures, patterns, logos, rasterized text and photographic surfaces. Feel free to contact our sales team, if you would like to hear more!

PAINTED JUKOLA 3D TEXTURES

All Jukola 3D textures are also available in white and black covering suitable for both indoor and outdoor use. The boards, painted with high quality Tikkurila paints selected by wood treatment professionals, offer long maintenance intervals and an effective weather resistance.

Love for the Forest

Lunawood is a pioneer and global market leader of Thermowood. We love the forest, its untamed freedom and its incomparable strength. Our mission is to reconnect nature with people in urban environments. We make the soothing effect of the forest available to all.

Our mills in Finland transform the very best Nordic pine and spruce into beautiful and long-lasting Thermowood. It is the ideal foundation and the perfect material for an ecological and healthy way of designing, building and living.

Every Lunawood product is an authentic piece of Nordic forest and is the result of years of dedication to sustainability. Non-toxic Thermowood is suitable for all climates and types of weather. It is dimensionally stable and resin-free. These unique properties inspire architects and builders to create amazing and versatile projects around the world.

Founded in 2000, Lunawood employs 90 professionals in Finland, at its production units in Iisalmi, Kaskinen and Joensuu, as well as at its head office in Lahti and in its main export markets. In 2017 Lunawood's turnover was EUR 41 million.
